

Traffic Controller

Initial training for people new to traffic control or with expired RMS Cards

This course is for any person who is required to control traffic through or past a work site using a stop/slow bat. The course ensures that workers have a suitable level of professional knowledge and experience to ensure confidence in live traffic control situations.

The initial training course is for participants who have never had an SafeWork NSW TCWT Card OR have a RMS card that has expired.

This Course Includes: Initial Training > 2 days theory and practical training + final assessment

At the end of training, participants will be given a Statement of Completion (SoC) allowing them to work on a site for 90 days while they complete the assessment.

Participants need to complete the 5 steps of assessment, after initial training is completed. These steps must be completed within 90 days of the training course.

Pre-requisites

Participants must provide:

- White card (construction induction card)
- 100 points Evidence of Identity (EOI)
- Unique Student Identifier (USI) number

Participants must be physically able to perform traffic control duties:

- Loading and unloading signage
- Using a stop slow bat and two-way radio at the same time

Participants must be able to read and write, including:

- Read signage
- Read work instructions, SWMS etc
- Complete a range of forms, checklists

All participants will need access to work on roadworks within 60 days of attending training in order to complete the assessment requirements of this course.

All advertised prices are inclusive of SafeWork NSW card fees

Units

On successful completion of the training and assessment, participants will gain the following units of competency:

- RIIWHS205D Control traffic with a stop/slow bat
- RIIWHS201D Work safely and follow WHS policies and work procedures
- RIICOM201D Communicate in the workplace

Assessment Process

Step	Tasks to be undertaken	Undertaken by:	Location to be undertaken	Timeframe to complete task
1	Pre-Practical Theory Assessment and Theory Assessment Workbook completed	Participant	Classroom	Day 2 of training
2	Workplace Assessment Workbook completed	Supervisor	Participant's workplace - live traffic environment	Within 60 days of training
3	Collate supporting workplace documents; <ul style="list-style-type: none">• TCP• SWMS• Toolbox Meeting Minutes	Supervisor or participant under direction of the supervisor	Participant's workplace - during step 2	Within 60 days of training
4	Return both Assessment Workbooks, Logbook and supporting documents to LGTI for marking	Participant	N/A	Within 60 days of training
5	Attend Assessment Day at LGTI	Participant	LGTI Live Traffic Control Worksite	Within 90 days of training

Assessment days are run regularly at LGTI. You must have a current SoC and white card to attend an assessment day at LGTI.

After successfully completing the 5 steps of assessment, participants will be sent a TCWT card by SafeWork.

If a student is not successful in completing all assessments satisfactorily or on time, they would need to attend training again and pay the course fee.
